

User Guide

The Flashlight

About the application

This application turns the display of your phone into a multi color flash light.

If you find any errors please report to: support@picobrothers.com

Using the flashlight

Touch screen phones

Touch the center of the screen to turn on and off the light. To change color, tap on the sides of the screen.

Non-touch screen phones

Turn on and off the flashlight with the center navkey. To change color use the right and left navkeys..
